

COAC FALLS (46° 0.046'N 67° 9.050'W)

Distance: 4.5 – 6.5 km

Derivation: From the Maliseet word for “Pine Tree in the distance”

CAUTION: The final atv trail is EXTREMELY steep, rough, and NOT SAFE for biking.

Getting there:

Drive NB-105, east of Nackawic to between civic # 4346 and # 4376, and park near the Lower Caverhill Road, or at the nearby church.

The trail:

Walk 580 meters along the Lower Caverhill Road, and turn left onto a side trail that is blocked by a large tree.

Walk 320 meters on the side trail to an intersection with a good wood road.

Turn right and walk up the road for 500 meters to a fork, and then take the right hand road.

Walk another 1.25 km until you hear the falls to your left.

Look for a significant ATV trail on the left.

Carefully descend the short, but extremely steep and rough trail to the base of the falls.

***At the very top of the atv trail, there is an orange flagged trail that leads to the top of the falls.**

On the way out, you have two choices of routes:

1. **Retrace your route to your vehicle** (4.5 km total walk)
Return for 1.25 km to an intersection.
Turn left and walk 500 meters to a side trail on the left.
Follow the side trail for 320 meters to the Lower Caverhill Road.
Turn right and walk 580 meters back to the paved NB-105.
2. **Add a 2 km loop up over a hardwood hill** (6.5 km total walk)
Return for 1.25 km to an intersection.
Turn right and walk 470 meters to a side road on the left.
Turn left and walk 800 meters to a side road on the left.
Turn left and walk up over a hill for 1 km to a dirt road.
***this hardwood hill is a maple sugar operation**
Back at the road, look directly across to see a side trail.
Follow the side trail for 320 meters to the Lower Caverhill Road.
Turn right and walk 580 meters back to the paved NB-105.
