

Porcupine Mtn. Loop

Distance: 3.25 km

Difficulty: Moderate

***the highlight of this hike is having a snack at the fine look-off overlooking Longs Creek.**

***the hike involves somewhat busy atv trails, so listen for approaching riders and give them lots of room.**

Getting There:

From Prospect St. in Fredericton, drive 11.5 km out the Hanwell Rd. and turn right onto Mazerolle Settlement Rd.

Drive east for 6.5 km and turn left onto Mountain Rd.

Drive 860 meters up the dirt road, and park.

***this road is rough in places, but can be easily negotiated with a bit of caution.**

The Trail:

Locate the ATV Trail on the left, and begin your hike.

The first 500 meters of trail are very steep, as you make your way to the top of the mountain.

When you reach an intersection with atv direction signs, turn left and walk down a hill to see an impressive Beaver Pond with a huge lodge at the far end.

Return to the main trail and continue on to a very fine look-off with 2 benches.

Continue down the trail until it meets the Mountain Rd.

Turn right and walk back to your vehicle.
