

[THE SLIPPERY MITTEN TRAILS](#)

Distance: 8+ kilometers

Difficulty: Easy hiking or cross country skiing

If hiking or snowshoeing here in winter, please do not walk on the classic ski tracks (grooves).

Getting There:

Follow directions to [Crabbe Mountain Ski Hill](#) , but instead of turning left onto Crabbe Mountain Rd, continue straight on the Central Hainesville Rd. for 350 meters, and then turn right onto Flume Drive.

Drive about 100 meters and park along Flume Drive adjacent to the Slippery Mitten Trail sign.

The Trails:

These cross country ski trails pass through interesting mixed woodland with some extra-large specimens of grey birch and cherry trees.

There are a few wet spots here and there that can easily be avoided.

The classically groomed ski trails are level to slightly sloping, and would make for a relaxing ski on a sunny winter day.

There is also a snow shoe loop as shown on the map.

The Slippery Mitten Trail

Excellence in X/C Skiing

TRAIL MAP

- A Entrance #1
- B Entrance #2
- C Party Kormer

Groomed Trails:

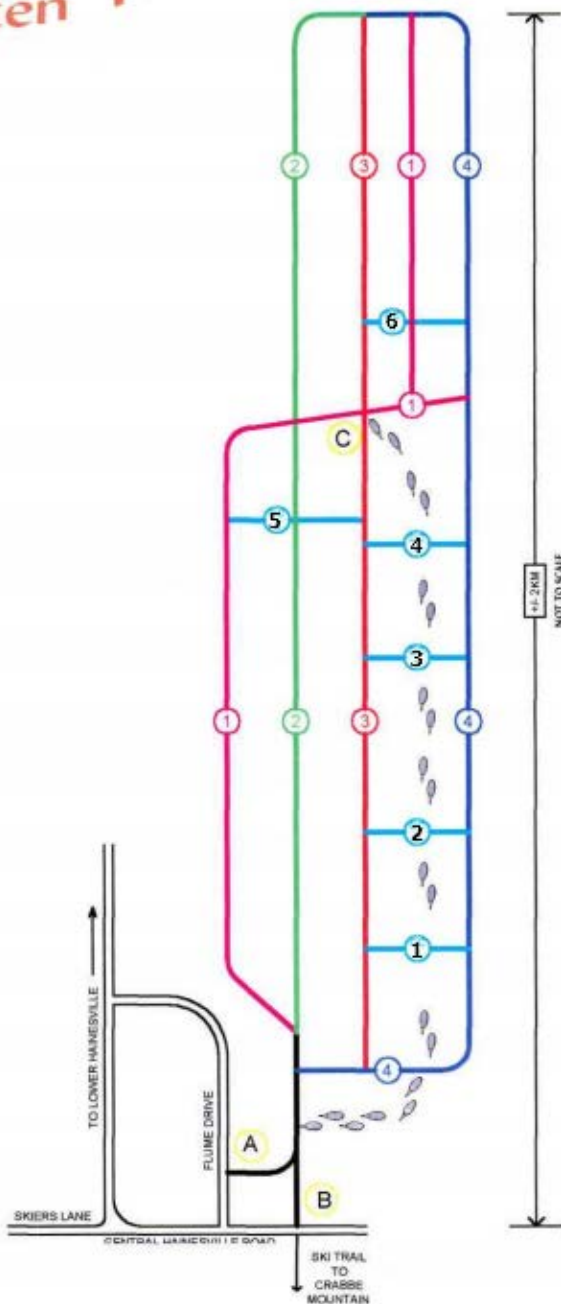

- ① The 'B' Line
